

WBNV features light Adult Contemporary music, playing familiar hits from the 70s through today. The music is soft enough for office listening, but lively enough to turn up

and enjoy anytime, anywhere. 93BNV's personalities add fun, topical content without getting in the way of the music.

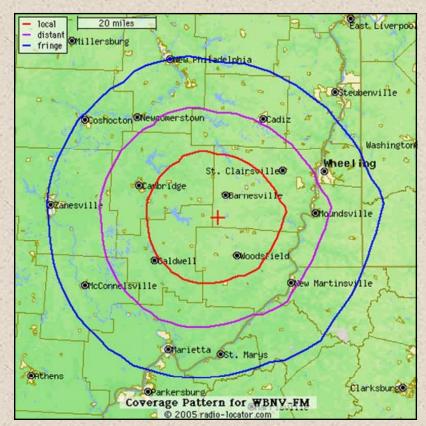

Although primarily female-targeted, WBNV has a balanced audience composition

among men and women that is not often found on other station formats. Its strongest audience is in midday and afternoon drive times when atwork and in-car listening is at its peak. WBNV's music is complimented by local news and information, high school sports play-by-play and Cleveland Indians baseball. In fact,

93BNV is the Tribe's only FM broadcast affiliate in East-Central Ohio!
